# VISION

Why did Facebook blow away MySpace?

Why did Zuckerberg turn down \$1B at 19 years old?

Why is Zuckerberg the top 10 wealthiest person on earth?

*"Because we wanted to connect people, we just cared more."*

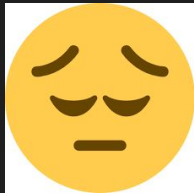

– Zuckerberg

# Help Customers Connect Better

How much do you *really* care about the lives of your customers?

- Would you devote your life?
- Would you go out of business?
- Would you turn down \$1B?

We would...

# Metrics & Profits – We'll Consider Customers Later

We despise capitalism that does not exist to primarily serve customer value.

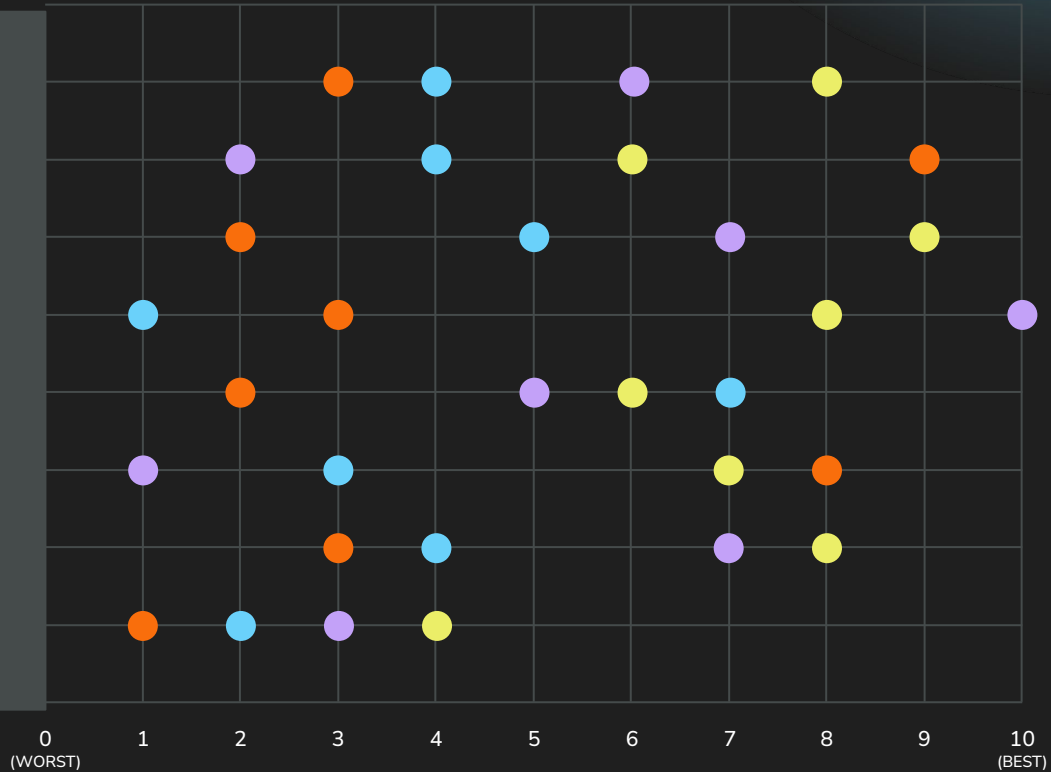

We are a mission driven, premiere product company, not a marketing company.

# Telling People Who To Marry!

- Horoscope
- Likes olives
- Sleeps with socks on
- Vague emotional BS
- INFTP
- Good person
- Attachment BS
- Vacation preferences

**We designed  
a new social network  
to connect people better.**

**We never considered  
profits even once.**

Because we want to change the world, and make way more than \$1B.

Because we are the only social network that puts values above metrics and feelings:

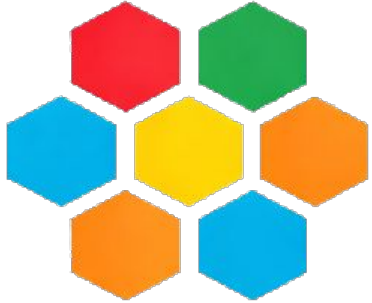

- controlling others
- profiting
- receiving social approval
- conformity / risk management / etc

Customers deserved conducting 15 years of deep scientific and product research.

We did this by what Steve Jobs calls:

... “ **Thinking Differently** ”

*Meet Today, Shape Tomorrow*

# Thank you!

We sincerely appreciate any feedback or opportunities.

We will never give up majority governance, because we know:  
Everyone else would take the \$1B.
